Choose the right HP device for your business

HP printers, MFPs and all-in-ones

Table of contents

HP printers, MFPs and all-in-ones are easy to use and deliver crisp, brilliant prints. Choose from a broad portfolio of stylish, innovative products that help simplify the way work gets done. Get a great value with proven HP quality and reliability.

Make a smarter investment

HP offers a wide variety of devices to meet all types of business needs, whether you're telecommuting from your home office, managing a busy branch office, or running a large enterprise department. Rely on cost-effective, dependable devices from the brand you trust.

Ease of use. HP devices just work, with intuitive user interfaces and sleek, simple designs that fit right into your office environment. Installation is quick, with no product assembly required.

Stunning print quality at blazing fast speeds. Consistent, excellent output will make your business shine. HP LaserJets deliver crisp, clean text and print-shop quality colour. HP OfficeJets and PageWide devices produce professional colour documents that resist fading, water, and highlighter smears[1]—for a low cost per page.

Great value. HP devices are solidly built and reliable for the long haul, with competitive purchase prices and low operation costs. Some devices offer high-capacity cartridges for even more affordable printing.

Simple HP JetAdvantage Mobile Print Solutions.[2] Many HP devices are Mopria certified for easy printing from your smartphone, tablet, or laptop without a special app or software.[3] Some products come with award-winning peer-to-peer wireless direct printing and touch-to-print (NFC) technology.[4] You can add these capabilities to many existing devices with mobile printing accessories.

HP's best-in-class security.[5] HP Pro and Enterprise devices offer a variety of embedded security features and optional solutions to protect hardware and safeguard data. Defend your network with self-healing technologies that guard against complex security threats. Apply efficient, fleet-wide security policies to protect all your HP print devices with optional HP JetAdvantage Security Manager.[6]

Innovative HP JetAdvantage Workflow Solutions. Capture, store, access, and deliver the content you need—all while helping to reduce costs. The robust image preview feature and HP Quick Sets on HP Enterprise MFPs save time. Zoom in and inspect scanned jobs and add, delete, reorder or rotate pages, right at the device. At the touch of a button, launch complicated workflows to a variety of destinations.

Versatile HP JetAdvantage Management Solutions. Many HP Pro products and all Enterprise products are supported by HP Web Jetadmin (WJA).[8] Improve fleet uptime by centrally monitoring and controlling devices—and assess and optimise usage with a variety of reporting tools. For simple one-to-one device management, use the HP Embedded Web Server (EWS). The HP Universal Print Driver (UPD) makes it easy to connect and print.[9]

Features to help reduce environmental impact. Many HP devices are Blue Angel and ENERGY STAR® certified and include energy-saving features such as Instant-on Technology and Auto-On/Auto-Off Technology.[11] Because HP OfficeJet and PageWide products have no fuser, they typically have low energy consumption.

Select the right device

The right imaging and printing product can save you time and help cut costs. Yet with all of the available HP devices, how do you choose? See page 4 for questions to help you select devices for small and medium office, branch office, or home office. See page 13 for questions to ask when choosing enterprise-class devices.

HP is widely recognised as a leader in innovative print technology. For the sixth year in a row and the seventh time since 2008, HP has captured BLI's Colour Printer/MFP Line of the Year award.

Buyers Laboratory, LLC gave HP an Outstanding Achievement in Innovation award for its use of **NFC/Wi-Fi Direct** to bring security and simplicity to mobile printing.

Safeguard your fleet of HP devices with the solution Buyers Laboratory, LLC calls trailblazing—**HP JetAdvantage Security Manager**.[7]

HP JetIntelligence
More. Pages, Performance, and Protection.

Select new HP LaserJet devices come with Original HP Toner cartridges with JetIntelligence. Print up to 33% more professional-quality pages,[10] count on peak printing performance every time, and get protection against counterfeits with innovative anti-fraud technology.

How to select the right device for your small office

When choosing an HP device for a small or medium office, branch office, or home office, start by answering the following questions.

How many users will print how many pages each month? Consider:
- The recommended number of users
- The recommended monthly page volume (RMPV)[12]
- The device's listed print speeds

What kinds of documents do you primarily print?
- HP OfficeJet devices deliver professional everyday document quality at a low cost-per-page
- PageWide devices offer professional everyday documents at HP's lowest print operating costs,[13] along with fast print speeds[14] and low energy consumption[15]
- HP LaserJets deliver print-shop quality output for impressive colour marketing materials
- Monochrome LaserJets offer HP's best value for black-only prints
- A4 devices support a variety of standard paper sizes; wide-format devices support documents up to A3
- HP OfficeJet Mobile printers and all-in-ones are compact and lightweight for easy printing or scanning on the go

Do you need to scan, copy, or fax? Do you require document workflow or storage solutions?
- If you only need to print, choose an HP OfficeJet, LaserJet, or PageWide printer
- If you're looking for scanning, copying, and faxing capabilities, you need a multifunction product (MFP) or all-in-one (AiO)
- Devices with control panel business apps allow you to view and print directly from the Web
- HP OfficeJet Pro all-in-ones and LaserJet or PageWide Pro MFPs support core workflows, such as scanning to email or network folders—and some products support optional workflow solutions such as HP Quick Forms, HP Scan to Cloud and eStorage such as Google™ Docs or Box.net

Do you need to share the device?
- Most HP devices offer Ethernet or wireless networking
- Devices with support for mobile printing let users print from their smartphone or tablet—easily print from a Mopria-certified device;[3] print on the go with HP ePrint;[16] print from an iPad, iPhone, or iPod touch with Apple AirPrint;[17] or choose HP wireless direct or NFC touch-to-print for secure peer-to-peer wireless printing without connecting to the network[4]
- Devices with an easy-access USB offer quick printing from or scanning to a thumb drive

What kind of management and security support do you require?
- Networked devices can be individually managed via the HP Embedded Web Server (EWS)
- If you require remote management of core configuration and security options, choose a device that's supported by HP Web Jetadmin at the essential level[8]
- Increase security, cut costs, and restore control with cloud-based HP JetAdvantage Private Print[18]

Detailed benefits comparison

The tables on the next several pages provide a quick overview of the HP OfficeJet, LaserJet, and PageWide products recommended for small and medium office, branch office, or home office in your region.

Consider devices designed for 3-10 users

Many of the HP OfficeJet, PageWide, and LaserJet Pro devices listed on pages 7 and 10 are an excellent choice for small work teams or for remote branches in enterprise environments. They offer Pro level security and manageability at an affordable price.

How to select the right device for your enterprise

When choosing an imaging and printing product for your company's large work team, workgroup, or department, you should consider some additional questions.

How many users will print how many pages each month? Consider:
- The recommended number of users
- The recommended monthly page volume (RMPV)[12]

What kinds of documents do you primarily print?
- HP PageWide devices offer HP's lowest print operating costs[13] and lowest environmental impact,[15] while delivering professional everyday document quality at HP's fastest speeds[14]
- HP LaserJets deliver leading laser performance, with print-shop quality output for impressive colour marketing materials
- Monochrome LaserJets offer HP's best value for black-only prints
- A4 devices support a variety of standard paper sizes; wide-format devices support documents up to A3
- Enterprise finishing options may include mailboxes, stapling, hole-punching, or booklet-making

How sophisticated are your workflow needs?
- If you only need to print, choose an HP OfficeJet, PageWide, or LaserJet printer
- HP Pro MFPs support core workflows, such as scanning to email or network folders
- Enterprise MFPs offer more send-to destinations, HP Quick Sets for launching one-touch workflows, and superb image preview and enhancement on a large, colour touchscreen
- Flow MFPs have more advanced scanning, processing, and routing capabilities

What level of IT management integration do you require?
- HP Enterprise devices fit best in IT-managed environments, with advanced security controls like user authentication and PIN-enabled printing; HP OXP-enabled integration for hundreds of available partner solutions; advanced HP Web Jetadmin support for fleet management, monitoring, and reporting;[8] and upgradeable HP FutureSmart Firmware[23]
- HP Pro printers or MFPs are a good fit for lightly managed environments such as branch offices, offering essential management of core features via HP WJA
- All Enterprise and some Pro devices are supported by HP Universal Print Driver[9]

Meet your team's needs with the right type of device

HP LaserJet Pro printers and MFPs—Reliable and easy to use, these laser devices deliver print-shop quality colour documents, with LaserJet Pro MFPs offering the core workflow features many small work teams need. Some are supported by HP UPD and have essential configuration, security, and monitoring features that can be managed through HP WJA.

HP PageWide Pro printers and MFPs—These devices offer a low total cost of ownership,[13] along with essential support for HP WJA, UPD, and some solutions. PageWide Pro MFPs add core workflow features. Plus, the HP PageWide Pro series offers phenomenal speeds[14] and low energy consumption[15].

HP LaserJet Enterprise printers and MFPs—These workhorse devices support all HP enterprise solutions and offer robust security options along with advanced fleet monitoring, management, and reporting. Choose a LaserJet Enterprise MFP for enhanced workflow features.

HP PageWide Enterprise printers and MFPs—These devices deliver a low total cost of ownership.[13] Get enterprise manageability, security, and extensibility, along with phenomenal speeds[14] and low energy consumption[15]. PageWide Enterprise MFPs offer enhanced workflow features.

HP LaserJet and PageWide Enterprise Flow MFPs—Streamline workflows with built-in optical character recognition (OCR) and embedded scan to Microsoft® SharePoint® capabilities. Flow MFPs offer fast two-sided, single-pass scanning, HP EveryPage to avoid missed pages, a pull-out external keyboard for easy data entry, and a host of other features.

Notes

[1] Fade resistance based on paper-industry predictions for acid-free papers and Original HP inks; colourant stability data at room temperature based on similar systems tested per ISO 11798 and ISO 18909. Water resistance based on HP internal testing, using paper with the ColorLok® logo. For details, see hp.com/go/printpermanence.

[2] Local printing requires mobile device and printer to be on the same network or have a direct wireless connection. Wireless performance is dependent on physical environment and distance from access point. Wireless operations are compatible with 2.4 GHz operations only. Remote printing requires an Internet connection to an HP web-connected printer. App or software and HP ePrint account registration may also be required. Wireless broadband use requires separately purchased service contract for mobile devices. Check with service provider for coverage and availability in your area. See hp.com/go/mobileprinting for more details.

[3] Mopria-certified HP printer and mobile device must be connected to the same wireless network or have a direct wireless connection. Performance is dependent on physical environment and distance from the wireless access point. Wireless operations are compatible with 2.4 GHz routers only.

[4] For wireless direct printing, mobile device needs to be connected directly to the Wi-Fi signal of a wireless-direct capable MFP or printer prior to printing. Depending on mobile device, an app or driver may also be required. Wireless performance is dependent upon physical environment and distance from the access point in the MFP or printer. For touch-to-print, mobile device must support NFC-enabled printing. For more information, see hp.com/go/mobileprinting.

[5] Based on HP review in 2015 of published embedded security features of HP printers. Only HP Enterprise-class devices with FutureSmart offer a combination of security features for integrity checking down to the BIOS with self-healing capabilities. A FutureSmart service pack update may be required to activate security features. Learn more at hp.com/go/PrintersThatProtect and hp.com/go/pagewidebusiness.

[6] HP JetAdvantage Security Manager must be purchased separately. To learn more, please visit hp.com/go/SecurityManager.

[7] Buyers Laboratory, LLC Solutions report, February 2015. For details, see hp.com/go/SecurityManager or buyerslab.com.

[8] HP Web Jetadmin is available for download at no additional charge at hp.com/go/wja. HP Web Jetadmin offers different levels of device support: HP essential fleet management with a core set of fleet management features for distributed enterprise such as branch offices or teleworker environments, and HP advanced fleet management with a comprehensive set of enterprise configuration features and management capabilities.

[9] HP Universal Print Driver is available for download at no additional charge at hp.com/go/upd.

[10] Based on ISO/IEC 19752 and 19798 cartridge yields for the following Original HP LaserJet Toner cartridges: 131A compared with 201X, 507A compared with 508X, 55X compared with 87X, 80X compared with 26X, 305A/X compared with 410X. For more information, see hp.com/go/learnaboutsupplies.

[11] HP Auto-On/Auto-Off Technology capabilities subject to printer and settings; may require a firmware upgrade.

[12] HP recommends that the number of printed pages per month be within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period.

[13] Total cost of ownership comparison based on 90,000 pages for PageWide Pro and 150,000 pages for PageWide Enterprise; manufacturers' published specifications for page yields and energy use; manufacturers' suggested retail price for HP hardware and supplies; cost per page based on ISO yield with continuous printing in default mode with highest-available-capacity cartridges; and long-life consumables of all HP colour business A4 printers €300 -€1,249 and MFPs €400 - €3,000 as of November 2015. Learn more at hp.com/go/pagewidebusiness and hp.com/go/learnaboutsupplies.

[14] Speed comparison based on manufacturers' published specifications of fastest available colour mode of all HP colour business A4 printers €300 - €1,249 and A4 MFPs €400 - €3,000 as of November 2015. HP PageWide speeds based on General Office mode and exclude first page. Learn more at hp.com/go/pagewidebusiness.

[15] Energy claim based on comparisons of TEC data reported on energystar.gov. Data normalised to determine energy efficiency of HP Pro-class colour business printers €300 - €800 and MFPs €400 - €1,000 and HP Enterprise-class colour laser printers €500 - €1,249 and MFPs €1,000 - €3,000 as of November 2015, market share as reported by IDC as of Q3 2015. Subject to device settings. Learn more at hp.com/go/pagewidebusiness.

[16] Printer requires ePrint account registration. App or software may be required. Wireless operations are compatible with 2.4 GHz operations only. Learn more at hp.com/go/mobileprinting.

[17] Supports the following devices running iOS 4.2 or later: iPad, iPad 2, iPhone (3GS or later), iPod touch (3rd generation or later). Works with HP's AirPrint-enabled printers and requires the printer be connected to the same network as your iOS device. Wireless performance is dependent on physical environment and distance from the access point.

[18] HP JetAdvantage Private Print is available at no charge and requires the printer be connected to the Internet with web services enabled. Not available in all countries. For more information and device compatibility details, see hpjetadvantage.com/ondemand.

[19] Either after first page or first set of pages. For more information, see hp.com/go/printerclaims.

[20] OfficeJet ink cartridges: average based on ISO/IEC 24711 or HP testing methodology and continuous printing. PageWide cartridges: Average colour composite (C/M/Y) and black declared yields based on ISO/IEC 24711 and continuous printing. LaserJet print cartridges: declared yield value in accordance with ISO/IEC 19752. Actual yield varies considerably based on content of printed pages and other factors. For details see hp.com/go/learnaboutsupplies.

[21] The HP LaserJet Pro M104a, M104w, M402dn Russia, and the HP LaserJet Pro MFP M132a, M132nw, M132fn, M132fw, M426dw Russia, and M426fdn Russia models are only available in Russia.

[22] The HP LaserJet Pro MFP M435nw is only available in specific countries in MEMA (Africa, ME, TR) and CEE (RU, CIS).

[23] HP FutureSmart Firmware is available on select HP Enterprise printers and MFPs. Some features enabled by future HP FutureSmart upgrades may not be available on older devices if, for example, physical product characteristics limit the functionality of the new feature.
