beurer

The powerful device runs at up to 26,000 rpm and enables efficient, fast nail care. Includes 9 high-quality attachments made of sapphire, felt and carbide

The powerful device runs at up to 26,000 rpm and enables efficient, fast nail care. Includes 9 high-quality attachments made of sapphire, felt and carbide

For artificial nail modelling

Also suitable for the use of acrylic and gel nails and UV varnishes

For professional nail and foot care

Attachments are suitable for diabetics

9 high-quality attachments made of sapphire, felt and carbide for tailored use as required

The clockwise/anti-clockwise rotation enables versatile use and is suitable for both right-handed and left-handed users

Thanks to the aluminium housing, the nail cutter works quietly with minimal vibrations and does not generate high temperatures

The compact design means the device can be easily transported and stored

3 functions combined in one device: Nail cutter, UV/LED lamp and nail dust extractor

Extra-slim shape for precise manicures/pedicures and precise filing and shaping of nails

The integrated filter is durable, removable and quick to clean

Timer function: 30, 60 and 120 seconds
