# Iconia Tab 10

## Made for sharing

This tough and share-friendly tablet is where families get together to share their videos, photos, stories, knowledge exploration, and more. It allows many users to sign into their private computing experiences, and its 10.1" screen makes it just the right size to float from room to room while also showing the big picture.

## Family-friendly visuals

The Full HD display features Zero Air Gap technology, for brighter colors and clearer images in sunlight. When you need to use it for long periods, simply switch to Reading Mode to reduce that eye strain-causing blue light. A special coating counters smudging and makes it easy to clean.

## Touch with greater accuracy

The Acer Precision Plus touchscreen delivers the most accurate touch and writing experiences on a tablet, ever. It's so sensitive that you can write and sketch clearly on it with something as thin as an ordinary pencil! Pre-loaded Iconia Suite apps make the tablet even more easy and intuitive to use.

## Designed for durability

The screen's super-tough Corning® Gorilla® Glass 4 is very resistant to cracking and scratches. Special materials and mechanical design features make the tablet more durable, so the whole family can use it as often as they want. The grip-friendly texturing on the casing enhances durability by making it harder to drop the tablet.

## The perfect sharing tool

Multiple users can log into their own private computing "compartments" on this one tablet, so everyone in the family can choose what they want to share. The micro USB port features SlimPort® technology, so you can show your content on a big screen via a USB-to-HDMI cable. Twin speakers add to the sharing fun.
