W=600mm CK-Line Free Standing Cabinets

The CK-Line product range is developped for Networking and Servering structure needs, with the most economic offer carrying the all necessity functions required in the structure of network and server applications.

The fully automated industry applied production gives the maximum optimized output of quality and cost, by this way the product range hits to its target of achievement.

The 600 series is available in 8 heights from 12U through to 42U, and in certain sizes a choice of depth is also available including 600, 800 and 1000mm options. Each cabinet is supplied as standard with a glass front door, steel rear door and lift off steel side panels, all of which are lockable. The 800 wide series are starting from 32 to 42U size.

The wide product height portfolio meets any U requirement in infrastructure needs.

CK-Line series have a professional technical but aesthetic look with decorative Metal Housing on the front door; the product range attracts the attention with the mostly environmentally fit and selected color of RAL 9005 Black, and RAL 7035 Light Grey, with fine wrinkle soft touch paint.

The product range allows with 1000mm depth versions, usage in private / low density server and storage applications. As well D1000mm versions offered with %63 perforated front and rear doors for better removal of thermal load inside rack for low density server and storage applications

Completely standard and stocked product portfolio, being delivered as a single piece assembled product, as shipping configuration the adjustable feet group is included.

CK-Line series product range with optimal panel mounting size, and a variety range of accesorries enclose the whole expectation of users.

W600xD600mm

W600xD800mm

W600xD1000mm

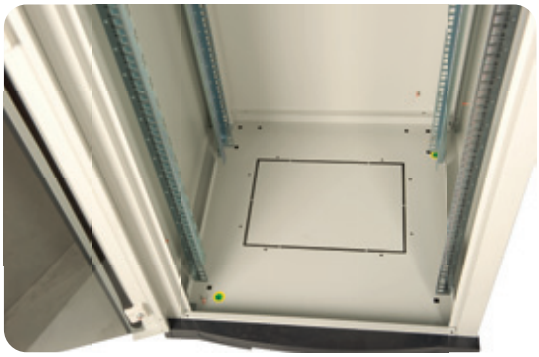
CONSTRUCTION DETAILS:

Main Profile- Framework- Top/Bottom Cases:
Multi Folded Automated Bending technology applied corner profile system, provides a heavy duty structure results to high load capacity of: 600 kgs.

Monoblock multi folded top and bottom cases, tighty fixed to the framework with fixing hardware rivets.

Top case has a ready Forced Ventilation (Fan Module) integration housing.

Fan Module installation is from inside of enclosure.

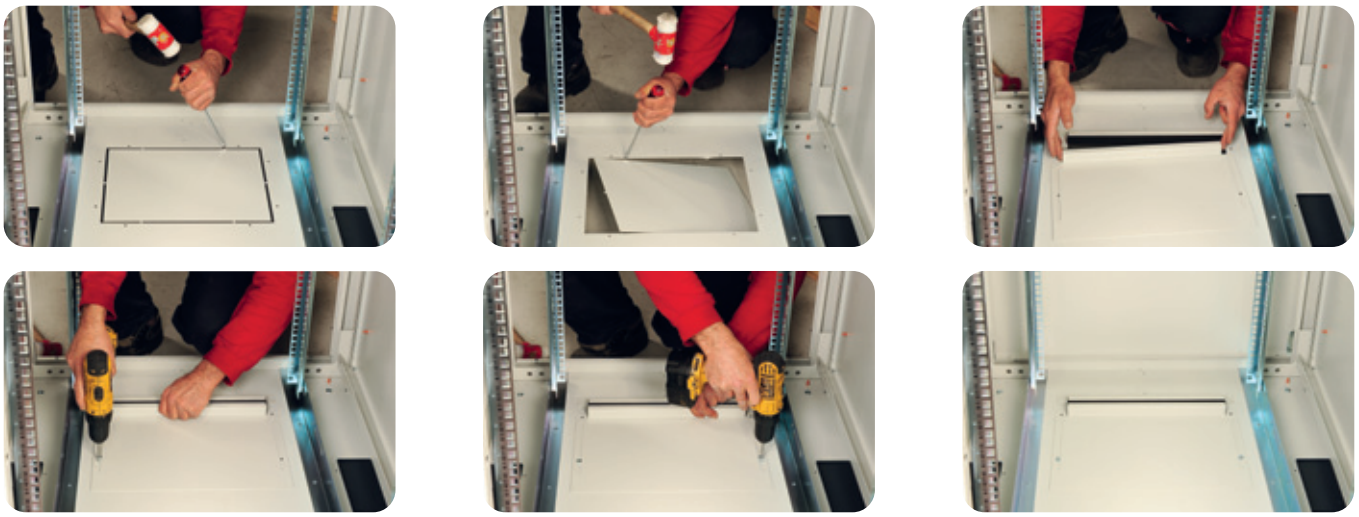


There are 2 pcs Dummy PVC Plates closing the roof cable entry on top, at W600mm cabinets. Also at W800mm cabinets these dummy cover plates are located at both left and right side of the roof and bottom case. Only W600mm x D600mm roof is already integrated with brushed cable entry due to less space on roof combination with cable entry & Fan Module Housing.

Once needed, any of these 2pcs Dummy Plates can be removed, to insert the cables from requested partition of either bottom case or top case, even both, in order to allow higher density cable insertion to the enclosure.

As accessory a brush set is offered as 300x55mm size , whenever the cable entry required to be with a protection for the falling dust, this accessory can be used. See accessory section for request.

Bottom case integrated with a large knock-out plate, once cables to come from bottom easily removed and cables to insert. Once a better protection for cables, as well for dust entry, the knock-out provision can be integrated with the rubber edged sliding mechanism on the cable entry point at bottom with w=350mmxd=250mm.
On rubber edged sliding mechanism max cable entry openning is w=350xd=150mm.
After inserting the cables, the rubber edged mechanism holds and fixes the cables in parallel preventing the cabinet from dust entry.



CONSTRUCTION DETAILS:

Access to enclosure:
Front door is integrated with decorative metal housing and full length smoked, shatterproof, antistatic, 4,0mm thickness glass with single point locking handled lock.

Front doors have decorative PVC Stripes charming the attraction, Anthracite Grey for RAL 7035 Light Grey Cabinets and Light Grey for RAL 9005 Black cabinets.

Front door openning direction is set right to left, but reversible to left to right at site with removing the hinge system. Hinge System is spring loaded easy operating version, which allows you to remove the whole front door from cabinet in seconds. No need of any tool during installation or removal of front door.

Front doors have 235degree opening angle, which allows easy access to enclosure, while installation or afterwards the maintenance processes.

Front Door Structure

Rear Doors are lockable and removable with barrel style lock, Multifolded bending technology with 8 fold bending provides the rigidity. Rear doors are with spring loaded hinge system can be removed in seconds from enclosure.
No need of any tools while installing or removing the rear door.

Rear doors have 120degree opening angle

Single Point Handle Lock Details

Rear Door Structure

CONSTRUCTION DETAILS:

Side Panels are lockable and removable with barrel style lock and 2pcs PVC snap lockers per side panel, Multifolded bending technology applied with 8 fold bending provides the rigidity. Easy mechanical locking of panel to main frame with snap capture sytem allows easy attachment of panels and easy removal in seconds while installation in process. No need of any tools while installing or removing the side panels.

19'' rails of Lande CK-Line Series Free Standing cabinets are with automated silk-screen U numbering, depends on size 1U to 42U, same from top to bottom or bottom to top results to same U height selection. No matter from where you have started counting. 19'' rails are 4 fold bending surfaces, 1,5mm thickness provides the high load capacities. The 19'' rails are made of steel with 8-12 micron zinc plating for corrosion resistance. 19'' rails are adjustable in depth. For easy adjustment purpose, no need to detach the screws, just ease the screws and slide them in the channels on the top/bottom chasis bends.

Side Horizontal Support Bar in depth; up to 26U the 19'' rails are fixed to just to and bottom case. Higher than 26U the cabinets are integrated with 1 set (left/right) , 1,5mm thickness Z type made of Steel + 8-12 micron zinc plated **side horizontal support bar**

All design features provide 4 way access to your enclosure and equipments, easy to reach to enclosure and equipments for all infrastucture installations and maintenance needs.

CK-Line Cabinets has a decorative ABS header unit. For volume orders or projects, please coordinate with sales department to select any other color application than Anthracite Grey or Black standard offer by Lande.

In standard, all Header Unit upper left corner fitted with a Digital Thermometer with 1 meter cable probe, integrated with 2 lithium battery with 2 year life, measurement once for every minute.

W=800mm CK-Line Free Standing Cabinets are carrying the same constructional features of W=600mm segment with additional features for mass cabling infrastructure needs.

CK-Line Networking Enclosures, provide maximum optimization resulted to an optimum performance in between quality and added value.

While product gives maximum performance on cabling and networking infrastructure, in parallel provides a very valuable economy compared to its quality which is based on high technologic fully automated industry.

The 800 series is available in 32U ,36U and 42U heights for D=800mm, and 42U height for D=1000mm. Each cabinet is supplied in standard with double opening glass front door, single piece steel rear hinged door, all of which are lockable.

CK-Line have a professional technical but aesthetic look with decorative Housing on the front door; the product range attracts the attention with the mostly environmentally fit and selected color of RAL 9005 Black, and RAL 7035 Light Grey, with fine wrinkle soft touch paint.

The product range allows with 1000mm depth versions, usage in private / low density server and storage applications.

Completely standard and stocked product portfolio, being delivered a single piece assembled product, as shipping configuration the adjustable feet group is included.

CK-Line product range with optimal panel mounting size, and a variety range of accesorries enclose the whole expectation of users.

W800xD800mm

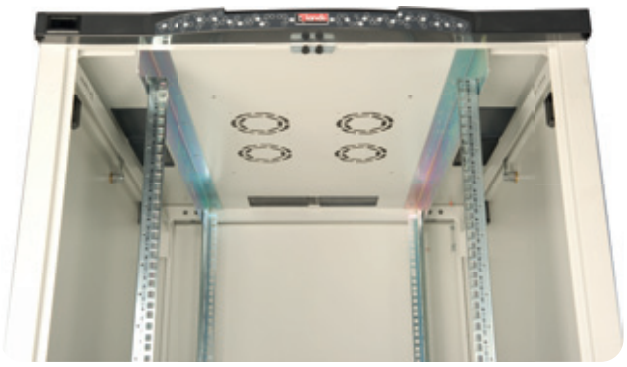
W800xD1000mm

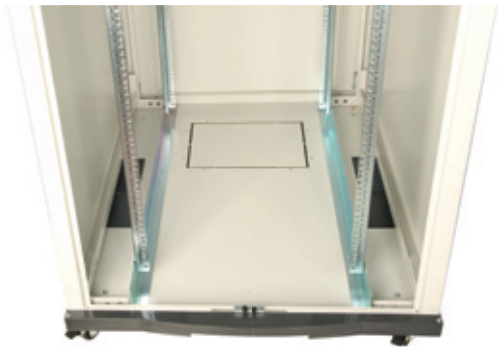
CONSTRUCTION DETAILS:

Main Profile- Framework- Top/Bottom Cases:
Multi Folded Automated Bending technology applied corner profile system, provides a heavy duty structure results to high load capacity of: 600 kgs.

Monoblock multi folded top and bottom cases, tighty fixed to the framework with fixing hardware rivets.

Top case has a ready Forced Ventilation (Fan Module) integration housing.

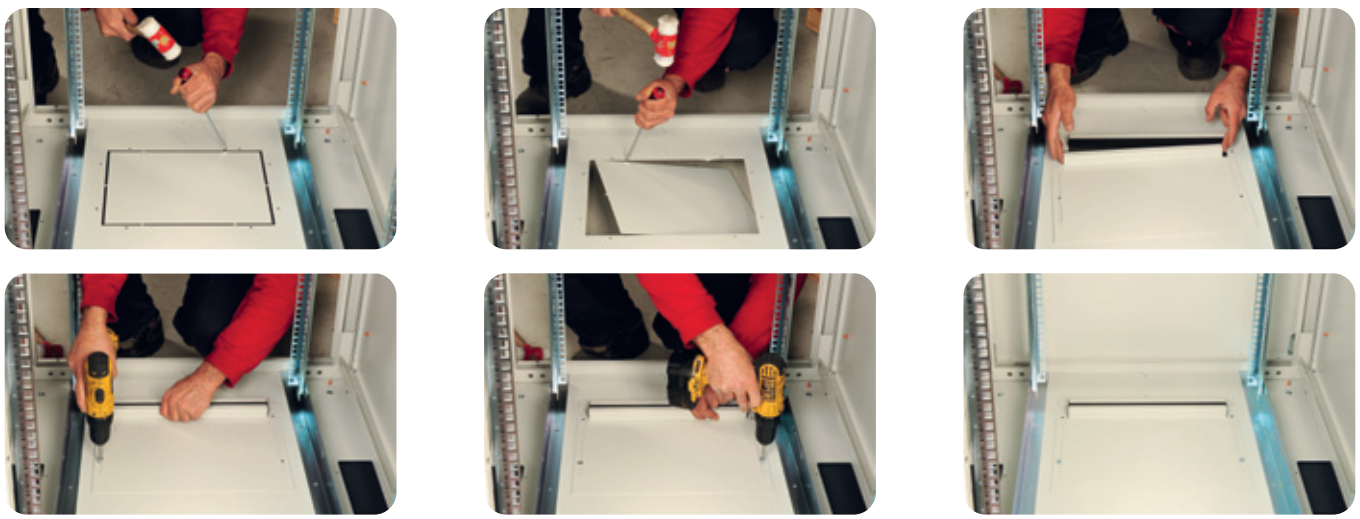




W800mm cabinets these dummy cover plates are located at both left and right side of the roof and bottom case. Also at rear partition of the top case. Once needed, any of these 2pcs Dummy Plates can be removed, to insert the cables from requested partition of either bottom case or top case, even both, in order to allow higher density cable insertion to the enclosure.

As accessory a brush set is offered as 300x55mm size , whenever the cable entry required to be with a protection for the falling dust, this accessory can be used. See accessory section for request.

Bottom case integrated with a large knock-out plate, once cables to come from bottom easily removed and cables to insert. Once a better protection for cables, as well for dust entry, the knock-out provision can be integrated with the rubber edged sliding mechanism on the cable entry point at bottom with w=350mmxd=250mm.
On rubber edged sliding mechanism max cable entry openning is w=350xd=150mm.
After inserting the cables, the rubber edged mechanism holds and fixes the cables in parallel preventing the cabinet from dust entry.



CONSTRUCTION DETAILS:

Access to enclosure:
Front door set is integrated with decorative metal housing and full length smoked , shatterproof, antistatic, 4,0mm thickness glass top/bottom barrel locking system.

Front doors have decorative PVC Stripes charming the attraction, Anthracite Grey for RAL 7035 Light Grey Cabinets and Light Grey for RAL 9005 Black cabinets

Front door is double opening as left and right partition. This allows less clearance in front of the cabinet while front doors are opening. Hinge System is spring loaded easy operating version, which allows you to remove the whole front door from cabinet in seconds. No need of any tool during installation or removal of front door.

Front doors have 235degree opening angle, which allows easy access to enclosure, while installation or afterwards the maintenance processes.

Front Door Structure

Rear Doors are lockable and removable with barrel style lock, Multifolded bending technology with 8 fold bending provides the rigidity. Rear doors are with spring loaded hinge system can be removed in seconds from enclosure.

No need of any tools while installing or removing the rear door.

Rear doors have 120degree opening angle.

Barrel lock on top, with PVC Handle

Barrel lock on bottom, with PVC Handle

Rear Door Structure

CONSTRUCTION DETAILS:

Side Panels are lockable and removable with barrel style lock and 2pcs PVC snap lockers per side panel, Multifolded bending technology applied with 8 fold bending provides the rigidity. Easy mechanical locking of panel to main frame with snap capture sytem allows easy attachment of panels and easy removal in seconds while installation in process. No need of any tools while installing or removing the side panels.

19'' rails of Lande CK-Line Series Free Standing cabinets are with automated silk-screen U numbering, depends on size 1U to 42U, same from top to bottom or bottom to top results to same U height selection. No matter from where you have started counting. 19'' rails are 4 fold bending surfaces, 1,5mm thickness provides the high load capacities. The 19'' rails are made of steel with 8-12 micron zinc plating for corrosion resistance. 19'' rails are adjustable in depth. For easy adjustment purpose, no need to detach the screws, just ease the screws and slide them in the channels on the top/bottom chasis bends.

Side Horizontal Support Bars in depth; W800mm cabinets are integrated with 1 set (left/right) , 1,5mm thickness Omega shape Steel Bar + 8-12 micron zinc plated , and also connection to top and bottom case via L shaped + 8-12 micron zinc plated side horizontal support bars

All design features provide 4 way access to your enclosure and equipments, easy to reach to enclosure and equipments for all infrastucture installations and maintenance needs.

CK-Line Cabinets has a decorative ABS header unit. For volume orders or projects, please coordinate with sales department to select any other color application than Anthracite Grey or Black standard offer by Lande.

In standard, all Header Unit upper left corner fitted with a Digital Thermometer with 1 meter cable probe, integrated with 2 lithium battery with 2 year life, measurement once for every minute.

Accessories;

Vertical Cable Managers;

For Mass cabling needs, and for patchcord and cables to be managed in a better way , CK-Line W800mm cabinets are compatible with a set of (Left/Right) Metal Vertical Cable Management 97mmx97mm as per the height of Rack.
(32U,36U,42U)
