Product **Description**

The ViewSonic PG703X is a high brightness XGA projector with 4000 ANSI lumens and a 22,000:1 contrast ratio that projects the finest detail regardless of the amount of ambient light in any medium sized space, such as a meeting room or classroom. The PG703X comes with an energy-saving SuperEco mode that reduces power consumption and extends lamp life to 15,000 hours, reducing the frequency of lamp replacement and lowering maintenance costs. In addition to dual HDMI inputs (MHL), S-Video, and VGA out, the PG703X includes RS232 and LAN connectivity, and is certified by Crestron, AMX and PJ Link networkable solutions, making it easy to control and monitor remotely.
