The image shows an Energy Label for a Hitachi television. At the top left is the European Union flag and the word 'ENERGY' with a lightning bolt icon. To the right is a QR code. Below this, the brand name 'HITACHI' and model number '43HE4205' are printed. The main part of the label is a bar chart with seven horizontal bars representing energy efficiency classes from A (green) to G (red). Class E is highlighted with a black arrow pointing to it from the right. Below the chart, the energy consumption is listed as '42 kWh/1000h'. Underneath that, there is a section for 'HDR' certification, showing a scale from A to G with 'G' selected, and a value of '60 kWh/1000h'. Below the HDR section is a diagram of a television screen with dimensions: 1920 px width, 1080 px height, a diagonal of 108 cm, and a viewing angle of 43°. At the bottom, there is a barcode and the number '50596938'. A small vertical text '2016/2017' is on the far right.
