Using the microphone

1. Connect BY-DM200 to lightning port on your iOS devices:

Tips and notes:

1. Some iOS recording Apps are specifically for their own devices and they may not be compatible with your device, you need download third-party compatible recording App.

2. If your iOS device can not recognize BY-DM200, please try disconnect and reconnect to lightning port of your iOS device and try to record again.
3. It is recommended that you set your iOS device to airplane mode to prevent any incoming calls from disrupting your recordings.
4. Before recording an important event, record and play back a short test with the microphone attached to ensure audio recording is functioning properly.
