## Accurate control

Next to working with 90% reduced key-click sounds, the Mydo mouse has an advanced optical sensor that offers you accurate control. Thanks to its ambidextrous design, it is perfect for left and right-handed users. Connect the Mydo mouse to your PC or laptop and you can start working.

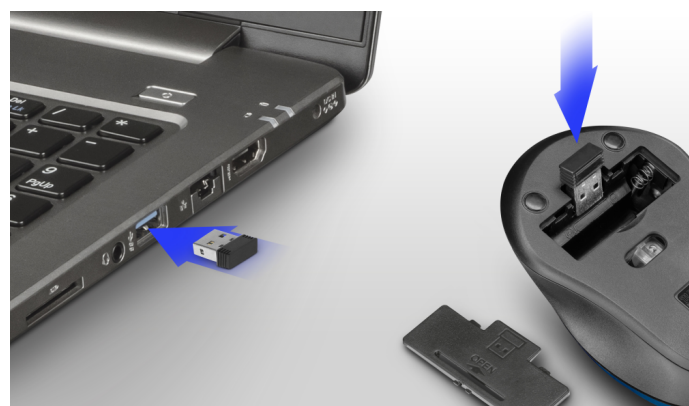

## Speed select button

The speed select button on top of the mouse allows you to alter the speed of the cursor (800/1400/1800 dpi). Set it to a low dpi for accurate and detailed photo editing or set it to a higher dpi for a quick online game.
