Rise of the Imperius

Turn on your gaming PC, log into your favourite game and make a name for yourself. The Trust Imperius will be your solid foundation on which to build your online empire. A large surface of 140x66cm, an integrated cable management system and a full-surface mousepad; this gaming desk already laid the groundwork for you.

Room to Play

In order to build your empire, you need plenty of room to play. The Trust Imperius XL-sized gaming desk is 140x66cm for more than enough freedom of movement; even if you use two monitors. And because the entire surface of this table is one big mousepad, don't worry about losing control. You've got a firm grip on all your commands.

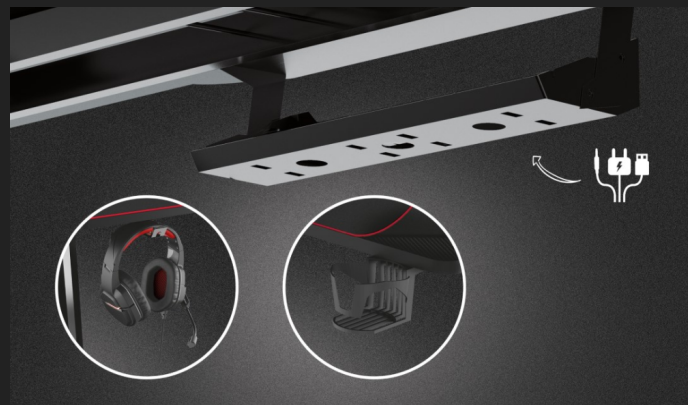

Steel Empire

The Trust Imperius is built like a tank: with a solid, steel frame. The height-adjustable feet make this table suitable for anyone with big aspirations, and on top of that lays the high-quality desk top. A stable surface is rock-solid foundation for any gamer looking for victory.

Clean Desk Policy

A clean desk equals a clear mind. Keep your desk free from clutter by using the integrated cable management system so you won't be distracted. Keep your headphones nearby by placing them on the headphone holder and take a sip from your beverage from the cup holder as you look over your newly established empire.
