

**#23855**

Semi-mechanical LED gaming keyboard

Semi-mechanical gaming keyboard with multicolour LED illumination

Key features

- Full-size keyboard designed specifically for gaming
- Semi-mechanical keys: conventional technology with the typing characteristics of a mechanical keyboard
- Multicolour LED illumination in 6 different light modes and adjustable brightness
- Advanced anti-ghosting: up to 19 simultaneous key pressings
- 10 Direct access keys and 12 multimedia keys for quick control
- Special gaming mode to disable the Windows key, for uninterrupted gaming

What's in the box

- Keyboard

System requirements

- USB port
- Windows 10, 8 or 7
- macOS 10.15 (Catalina) or higher
- Chrome OS

Best of Both Worlds

All of the benefits from mechanical and membrane keyboards, without the weaknesses. The Trust GXT 881 Odyssemi gives gamers everything they need to break boundaries, without breaking the bank: anti-ghosting, LED illumination, a mechanical feel... The Odyssemi delivers the best of both worlds.

Made for Gaming

The semi-mechanical switches in the Trust Odyssemi give gamers exactly the feel they need. Every button press is felt, making the GXT 881 reliable for gamers who want the right feedback during their gameplay. Thanks to the use of conventional technology, you won't spend too much but still enjoy important features, such as anti-ghosting of up to 19 key presses.

Functionality is Key

The Odyssemi is equipped with 10 direct access buttons and 12 media function keys to give you complete control over your media. While gaming, turning on the game mode will disable the Windows key, so you won't be accidentally kicked to your desktop screen. When your playing your favourite game, you're in full control.
