Your New Daily Driver

High-quality audio thanks to the large drivers, a large battery that will last for up to 75 hours and a comfortable design; the Trust Zena Bluetooth Wireless Headphones will be the daily driver for anyone who enjoys music on the road, while staying connected with voice assistants.

Charge and Enjoy

The Trust Zena uses a large battery that will last for up to 75 hours. When you're out on the road, waiting for your plane to arrive on its destination or just looking for some privacy, the Zena will be ready for you. Charged and good to go.

High-quality Audio

While the Trust Zena is packed with features, the audio quality is what makes these headphones truly stand out. Two 40mm drivers provide the right sound so you can enjoy your music the way it was intended. And thanks to the integrated microphone, you can even use it to make phone calls and use your voice assistant.

Convenience

Forget about untangling your cables. Just use Bluetooth to connect the Zena wirelessly to your phone, tablet or Bluetooth-enabled laptop. If you prefer, the Trust Zena can be used with a cable as well; for the times you need to connect it to a device that doesn't support Bluetooth. And when you're done listening, just fold these headphones up to easily store them in your backpack. Convenient.
