Less mess vacuum trimmer

Philips' No. 1 in tidy trimming

Trim your beard, moustache and sideburns while keeping tidy. The new Philips Vacuum Trimmer has an improved, high performance system with 50% stronger* airflow. It captures cut hair effectively, giving you a mess-free trim.

Less mess vacuum trimmer

- Optimized airflow for a mess-free trim

Skin-friendly performance

- Guard your skin, while trimming as close as 0.5mm
- Trim hair in any direction with the 3mm comb

Even trimming results

- Guides low-lying hairs towards the blades for an even trim
- Self-sharpening metal blades are precise even without oiling

Easy to use

- 20 lock-in length settings, 0,5 - 10mm with 0,5mm precision
- Quickly see the status of your trimmer's battery
- 60 min runtime after a 1 hour charge, or plug it in
- Just empty the chamber and rinse the blades under water
- 2 year warranty, worldwide voltage, no oil needed

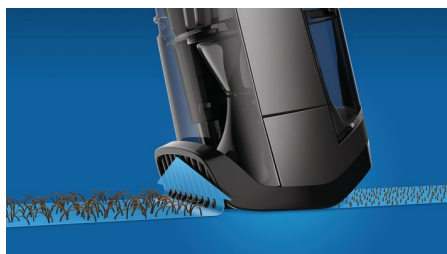

Highlights

High performance vacuum system

The new Philips Vacuum Trimmer comes with 50% stronger, improved airflow*. The powerful vacuum captures up to 95% of cut hair**, giving you a mess-free trim.

Lift & Trim PRO system

Trim your stubble in one stroke with our innovative Lift & Trim PRO system. It lifts low-lying hairs and guides them towards the sharp metal blades for a precise cut.

Self-sharpening metal blades

The stainless steel blades are double-sharpened, cutting even the thickest hair precisely. They sharpen themselves by lightly brushing against each other, so no replacement or oiling is needed throughout your trimmer's lifetime.

20 lock-in length settings

Select your preferred trim length by simply turning the zoom wheel on the handle until the length you want is displayed from 0,5 - 10mm with 0,5mm precision. Your chosen length is now "locked in" for a perfectly even trim.

60 min corded/cordless use

Charge your beard trimmer for 1 hour to get up to 60 minutes of cordless use, or simply use it plugged into the wall. Otherwise the quick charge function gives you a full trim after just 5 minutes of charging.

Battery indicator

The battery indicator shows when your trimmer's battery is empty, charging, or full.

Easy to clean

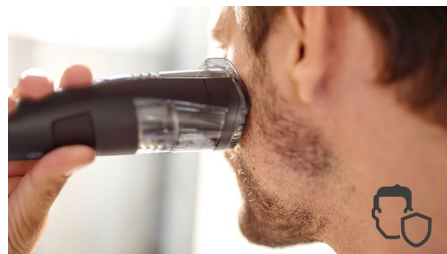

Once you are done, simply rinse the blades and comb under the tap, empty the hair chamber and brush away any loose hairs with the added cleaning brush for long-lasting performance.

Built to last

All of our grooming products are built to last. They come with a 2 year worldwide warranty, worldwide voltage compatibility, and they never need to be oiled.

Skin protection system

The unique skin protection system guards even your most sensitive body areas, allowing you to comfortably trim hair as close as 0.5mm without direct contact between the sharp edge of the blades and your skin.

Bidirectional trimmer and comb

Uniquely designed with a bidirectional trimmer and 3mm comb, this tool makes it possible to catch and cut hairs even when they grow in different directions. For thicker hair, pre-trimming with the comb is recommended.

Specifications

Cutting system

Precision (size of steps): By 0.5 mm

Range of length settings: 0.5 up to 10 mm

Cutting element: Stainless steel blades

Ease of use

Zoom wheel: Easily adjust length settings
