## Finishing

- Material jar: Glass
- Material of main body: Metal

# Highlights

## More power for smoother blends

Finer blending of fruits and vegetables, thanks to our 1400W motor.

## Unlocks more nutrients

We developed our ProBlend 6 3D technology to ensure that all of the ingredients in your smoothie are finely blended – so the nutrients in fruit, vegetables and nuts are unlocked from the cell structure and easily absorbed by your body.

## Up to 35000 RPM

35000 RPM for excellent blending and even healthier smoothies

## Large capacity blender jar

Everyone loves a good smoothie – so our blender jar holds up to 2 liters, so you can make smoothies for the whole family (or to save some for later).

## Choose your blending speed

From gentle blending for soft fruits – to a burst of power for harder fruit and vegetables. It's up to you with our variable manual speed options.

## Smoothies preset program

Smoothies preset program made easy for homemade smoothies.

## Dishwasher safe, easy to clean

All detachable parts of your Philips blender are dishwasher safe - except for the blade unit, which can be easily rinsed clean. The base can be wiped clean if needed.

## Detachable blender blades

To clean the blender blades, simply detach them from the blender jar and rinse. However, the blades cannot be cleaned in the dishwasher, to preserve their sharpness.

## Our promise of quality

You enjoy a 2-year worldwide warranty on our blenders – which is our guarantee of long-lasting quality and operation.
