

Create Your Own Colorful Vibe

AC237 USB 3.2 Gen 1 Portable Hard Drive

Three Color Options: Which One is Your Style?

The AC237 is available in three colors: Garnet Red, Vibrant Blue, and Jet Black. Users can choose their favorite color and coordinate all their accessories!

12.2mm Ultra-slim Portable Hard Drive

The AC237 portable hard drive, with a thickness of only 12.2mm, is slimmer than you'd think. Slip it into a backpack or a pocket – you'll barely even notice it's there.

Large 5TB Capacity: Take All Your Data With You

If you need 4TB or 5TB of space, choose the "Jet Black" versions. The understated, classic exterior covers a device that weighs just 250 grams. Yet storing a ton of large videos or high-res images is no problem at all for this drive.

Dual-color LED Light Shows Current Status

The AC237 USB 3.2 Gen 1 portable hard drive is backwards compatible with the USB 2.0 standard interface. The dual-color LED lights show the USB 3.0 (blue) or USB 2.0 (red) transmission status respectively, clearly identifying the drive's current mode of operation. Users can determine the status from a single glance.

Passed 10K Times Plug/Unplug Test

AC237 adopts durable USB Type-A female connector which has passed the 10,000 times plug/unplug test, providing safety guarantee for users.
