MAKES LIFE MORE VALUABLE

## ACTIVE

Smartwatch

Your ultimate companion for an active lifestyle

## Dual Band GPS

Navigate with precision using the ACTIVE smartwatch's dual band GPS, which supports six satellite positioning systems:

This comprehensive satellite coverage ensures accurate location tracking and reliable navigation whether you're exploring new trails or simply finding your way in the city.

## Powered by Syntra™ AI

Experience smart, adaptive performance with Syntra™ AI. This advanced technology optimizes your smartwatch's functions, learning from your usage patterns to enhance battery life, improve notifications, and deliver personalized recommendations, making every interaction with your ACTIVE smartwatch seamless and intuitive.

## 50 Meters Waterproof

Take your adventures to the next level without worrying about water damage. With a robust 50-meter waterproof rating, the ACTIVE smartwatch is designed to withstand immersion in water, making it perfect for swimming, showering, or any water-related activities.

### Barometric Altimeter

Track your elevation changes with accuracy using the integrated barometric altimeter. This feature provides valuable data for activities like hiking and climbing, and helping you track your progress and performance at different elevations.

### Compass

Stay oriented & navigate with confidence using the integrated compass. This feature provides real-time directional information, ensuring you stay on the right path during your outdoor explorations and adventures.

### Dual Core CPU

Experience smooth and efficient multitasking with the ACTIVE smartwatch's dual core CPU. This powerful processor handles multiple apps and functions simultaneously, ensuring a responsive and lag-free performance whether you're tracking your workouts, managing notifications, or accessing various features.
