## 1. Product Introduction

Apacer introduces the brand-new metal USB hard drive AH25B USB 3.1 Gen 1. The product is designed with the finest quality metal techniques to create ultra-light touch. The fashionable matte touch presents the low-keyed fine art of metalworking techniques.

The AH25B comes with smooth matte body which provides anti-drop and wear proof so that the user doesn't worry about getting fingerprint marks on it. Also, they can protect important data from losses in case of collision and damage; and the compact slim size let AH25B can easily slip into the jean pockets, purses and handbags. Its plug-and-play advantage and great storage capacity can help user to take documents, photos, presentation, video and music everywhere.

With a unique "Contrast Design" approach, Apacer's design team combines the matte metal shell with a translucent cover to form a dual sight and touch contrast, add more aesthetic gradations with joyfulness when using the products. The mixed and compatible Deep Valley Black and Sunrise Red respectively reflect the cool and passionate style to manifest the unique taste of the user. AH25B USB 3.1 Gen 1 provides a selection of 8GB, 16GB, 32GB, 64GB, and 128GB versions. The 128GB can store up to 33,000 photos of 800 million pixels or Full-HD films up to almost 60 hours. It allows carrying mass data for portable applications and realizing a digital life of unrestricted mobility!

AH25B is fully compatible with Windows 10, Mac OS 10.6.x & Linux 2.6.x or later which ensuring perfect cross-platform user experience and covered by limited lifetime warranty and compliant with RoHS requirement.

## 2. Features

- Capacity: 8GB / 16GB / 32GB / 64GB / 128GB
- High-Speed USB 3.1 Gen 1 certified, backward compatible with USB 2.0
- Easy plug & play
- Pen Cap Flash Drive
- USB powered. No external power or battery required
- The low-keyed fine art of metalworking techniques
- RoHS Compliant

### 3. Specifications

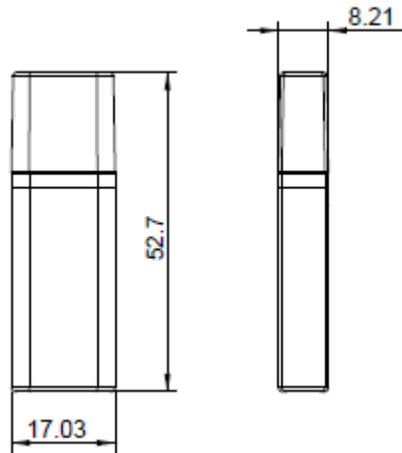

Specifications	
Interface	High-Speed USB 3.1 Gen 1 certified, backward compatible with USB 2.0
Power supply	USB bus powered No external power required
Operating Systems Supported	- Windows 10/8.1/8/7 - Mac OS 10.6.X or above - Linux Kernel 2.6.X or above
Capacity	8GB ~ 128GB
Operating Temperature	0° C to +60° C (32° F to 140° F)
Storage Temperature	-20° C to +60° C (-4° F to +140° F)
Dimensions	(L)52.7 x (W)17 x (H)8.2 mm
Weight	7g
Certificate	CE, FCC, BSMI, RCM

<sup>1</sup> Unformatted. Theoretically, 1GB=1,000,000,000 Bytes. Under operating systems, the capacity might appear to be less than the theoretical capacity because the calculation in OS is based on 1 GB = 1024 MB / 1MB =1024KB and a minority of the capacity is reserved for maintenance purposes. The actual available memory on the device is less than what is listed on the package. This is due to small discrepancies in file formats and algorithms used by various operating systems. In addition, a portion of memory space is reserved for system files and data sectors for better performance.

<sup>2</sup> No USB cable comes with the package because the unit can only be used while directly plugged into a USB port on a computer. To avoid damages caused while using, please do not connect the unit to any device with a USB cable.

<sup>3</sup> For details, please refer to Apacer official website for warranty policy.

## Physical Dimension

Unit: mm
