Multi-Mode Wireless Optical Mouse

M300 Silent

Refined, with a high-quality finish and a convenient non-slip scroll wheel, M300 transmits using Rapoo's latest and powerful multi-mode wireless featuring Bluetooth 3.0, 4.0 and 2.4 GHz. The comfortable compact design is boosted by a 'silent click' feature, which gives you freedom and a piece of mind since disturbing those around you is no longer a concern.

To suit different preferences, M300 Silent features a high-performance sensor, fully adjustable from 600 to 1600 DPI. The included Nano USB receiver can be stowed securely and conveniently within the base of the mouse. To top it off, Rapoo's power-saving technologies offer up to 9 months' battery life.

► Multi-mode wireless connection

Interference-free wireless options: The smart switch between Bluetooth 3.0, Bluetooth 4.0 (Smart/ BLE) and 2.4 GHz ensures stable wireless transmission with up to 10 meters range and 360° coverage. You can still use your mouse regardless of USB port shortage or the loss of receiver. M300 Silent automatically pairs the working device. It simultaneously connects to up to 3 devices, and easily switches among them in a click of a button. It simplifies cross-platform activities and meets multi-tasking requirements.

► Adjustable 1600 DPI HD sensor

Enjoy total control: with the adjustable DPI sensor, accuracy is no longer left to chance. Adjustable from 600 to 1600 DPI, you can adapt it to match your preference.

► The sound of silence

Click all you want: The silent mouse switches allow you to use your mouse freely without disturbing others. This mouse is perfect for late night projects at home, use at public places and while traveling.

► Up to 9 months battery life

Low energy consumption: Rapoo's energy-saving technologies, combined with the on/off switch, means you can use this mouse continuously for up to 9 months.
