

MINIX NGC-3

10th Gen Intel Core i3 Mini PC with Windows 10 Pro (64-bit)

Powerful. Versatile. Upgradeable.

VESA Mount included for fast and easy installation

MINIX®
Next Generation Computing

Powerfully Intelligent.

MINIX NGC-3 delivers new levels of intelligent performance and remarkable responsiveness, so you can get things done fast.

Experience the blazing speed of 10th Gen Intel® Core™ i3 processor, 256GB M.2 NVMe SSD and 8GB DDR4 RAM that will enhance your computing experience with short boot times and fast application launches.

Maximised Versatility.

MINIX NGC-3 is designed for vivid entertainment, digital signage, and the workplace.

Functionality and productivity are at the forefront of MINIX NGC-3's design, perfect for digital signage, intelligent vending, interactive digital kiosks, enterprise solutions, or simply a replacement for your home or office PC.

Triple 4K @ 60Hz Display Output.

MINIX NGC-3 supports triple 4K @ 60Hz display output via HDMI 2.0a, DisplayPort 1.2 and USB-C.

So, you can display your content in 4K UHD resolution and enjoy picture perfect performance every time. The vivid and detailed richness achieved by MINIX NGC-3's Intel UHD 4K Graphics create a stunning visual experience.

Ideal for bringing exceptional colour, clarity and brilliance to your digital signage or kiosk, or being ultra-productive in the office with multitasking across multiple screens.

And, with 5.1 Surround Sound via the Optical S/PDIF port you can enjoy an incredibly rich and immersive audio experience.

Customise + Upgrade to Fit your Needs.

MINIX NGC-3's customizable design means both the internal storage and memory can be upgraded or changed. While the included 256GB 2280 M.2 NVMe SSD provides ample lightning-fast storage, it can be upgraded to a maximum 2TB capacity.

And, for those who want an extra boost, the pre-installed 8GB DDR4 RAM can be increased to 64GB DDR4 RAM thanks to the 2 x SODIMM slots, dual channel supported.

Integrate Anywhere.

MINIX NGC-3 is easy to integrate anywhere; its small footprint means it can be positioned in even the smallest of spaces – whether behind a display or discretely hidden in your entertainment centre.

Though, don't be fooled by its size. MINIX NGC-3 delivers the power and functionality of a desktop PC in an ultra-compact system, packed with the performance of 10th generation Intel Core i3 processor and Intel UHD 4K Graphics.

Whisper Quiet Cooling for 24/7 Sustained Operation.

MINIX NGC-3 is built to last; intended for 24/7 sustained operation and attains reliable long-term operation even under the most strenuous tasks.

With excellent integrated cooling, fan noise is minimal. MINIX NGC-3 runs cool and whisper quiet while accomplishing breath-taking desktop level performance.

Wired and Wireless Connectivity.

MINIX NGC-3 has best-in-class wireless and wired standards for incredibly fast connectivity.

With Intel Dual Band Wireless-AC 3168, you get up to 3x faster Wi-Fi speed than 802.11n, and MINIX NGC-3's dual wired Gigabit Ethernet means you can connect into a network at astonishingly fast speeds without fear of dropped signals or losing your connection.

Feature Rich for Commercial Applications.

MINIX NGC-3 is equipped with 1 x COM Port to support RS232, which can be used for a variety of commercial applications.

While the Micro SD card reader and four USB 3.1 ports increase productivity; move large files and connect peripheral accessories with ease.

VESA Mount.

Bundled with a VESA mount, MINIX NGC-3 can be installed behind a monitor or TV, providing a simple and effective way to turn any VESA-compliant TV into a digital signage display.
