## Specially Designed for Small Business and Home Network

### • Optimized Antennas to Get Awesome Wi-Fi Experience

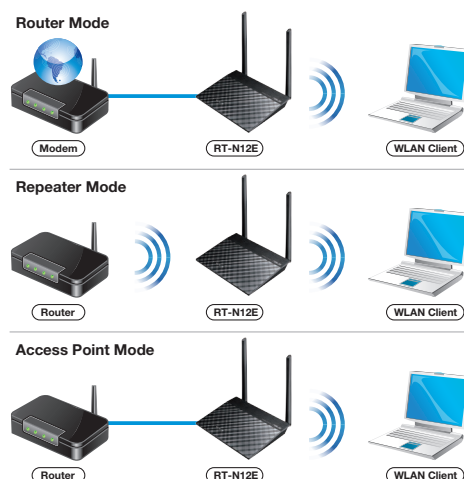

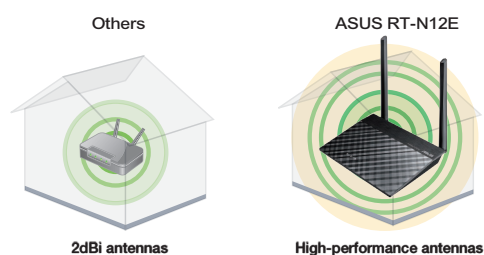

With two external optimized antennas, RT-N12E creates an extended coverage area with advanced wireless performance, making it ideal for streaming HD video, placing VoIP calls and online gaming.

### • Powerful and Wide Coverage

Featuring two high-performance antennas the RT-N12E provides a boosted signal to ensure extended wireless networking range.

### • Flexible 3-in-1 Router / Repeater / Access Point

Instantly select router, repeater, and access point modes with extra-quick settings in the user-friendly interface. No delays and no hassles – whatever your situation, take your pick and get connected.

## VPN Server Enabled

Easily set up a VPN server to browse the web and access data — no matter where you are. Featuring PPTP encryption, your data transmission remains always secure and confidential.

## Guest Access, Dedicated Wi-Fi for Your Visitors

Share your internet connection with your guests with no need to share your personal password or network resources. ASUS Guest Network supports up to three separate guest networks for each band, each with its own usage limits and password. Guests cannot access your primary network or any other connected devices.

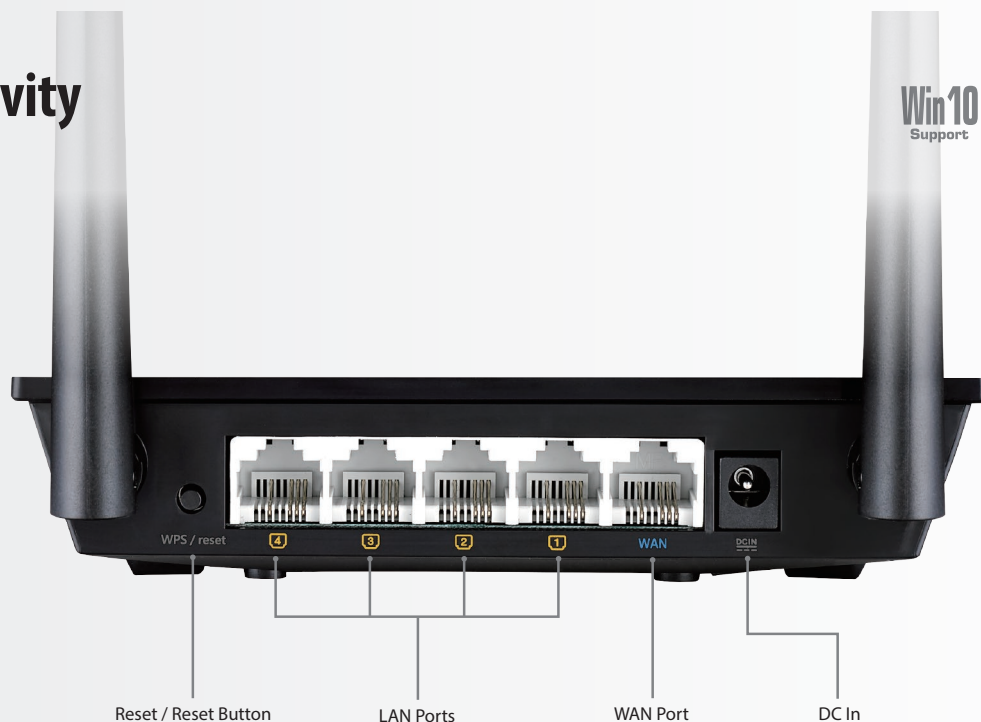

## Easy 3-Step Setup

Use your smartphone, tablet, or PC to effortlessly set up your ASUS router in only 3 easy steps. Simply connect the cables to the router, open a Web browser, and follow the setup wizard to get you to the internet in no time.
