

METALLIC OUTSIDE METTLESOME INSIDE

Lenovo

Designed to perform with its modern functionality and unmatched reliability, the ThinkPad E14 ticks every box of a modern professional device. It is powered by the latest 10th Generation Intel® Core™ i processors offering business-grade computing at a pocket-friendly price range.

The ThinkPad E14 is equipped with innovative features that augment productivity and improve user experience. Intel® Optane™ memory ensures quicker load-up times improving multitasking, while a full-function USB Type-C offers flexible connectivity in the office and on the go. The Smart Power On feature makes logins simple, and HARMAN branded speakers provide a truly memorable audio experience.

IT Decision Maker Benefits

User Comfort

The lightweight, sleek design, and powerful performance enable hassle-free productivity while on the go. The integrated power button with touch FPR lets users power-on and login in one touch.

Security

The discrete TPM 2.0 chip² encrypts important data and the physical camera shutter ensures complete user privacy from hackers and intruders.

Reliability

The ThinkPad E14 is MIL-SPEC tested—built to withstand rugged usage and function in extreme work environments. The backload keyboard is very durable and convenient to use.

Superior Performance: equipped with up to 10th Generation Intel® i7 Processors and optional AMD Radeon™ RX 640 graphics, the ThinkPad E14 delivers exceptional performance. Intel® Optane™ memory in combination with Dual Drive technology provides rapid loading times and seamless multitasking.

Premium Design: at just 17.9mm, it is an ultra-slim device, which is portable. The narrow bezels and two side metal cover exude the elegance of a premium device.

Robust Security: Windows Hello, with a Touch Fingerprint Reader, ensures secure logins. Sensitive user data is encrypted with a dTPM 2.0 chip, while the ThinkShutter camera maintains webcam privacy.

Easy Conferencing: a full-function USB Type-C port offers audio, video, data, and power capabilities for easy collaboration. Compatible with WiFi 6¹ technology, the E14 enables faster and secure connectivity.

Immersive Display and Sound: visuals are crystal-clear and colors are vivid thanks to a 14-inch, Full-HD, anti-glare display with an In-Plane Switching¹ panel for wide viewing angles. HARMAN speakers complete the audio-visual experience, delivering premium audio quality.

¹Optional

²Only available with Intel® UMA configuration

ThinkPad E14 Laptop

PERFORMANCE

Processor

Up to 10th Generation Intel® Core™ i7 Processor

Operating System

Windows 10 Pro 64-bit

Graphics

Integrated Intel® UHD Graphics (on UMA platform)
Discrete AMD Radeon™ RX 640

Memory

Up to 16GB DDR4 (2666MHz)

Storage

Up to 1TB SSD M.2 PCIe
Up to 2TB HDD
(512GB QLC SSD + 32GB Intel® Optane™)¹
Supports Dual Storage¹

Audio

Dolby® Audio™ solution
Dual-array, Skype for business certified microphones
2 x 2W HARMAN speakers

RECOMMENDED SERVICES

Lenovo offers a comprehensive portfolio of services to support and protect your ThinkPad investment—so you can focus on your work, not your IT.

Premier Support

Provides direct access to skilled and experienced Lenovo technicians offering comprehensive hardware and software support. Gives you a consistent point of contact within Lenovo to ensure that your case resolution is professionally managed from start to finish.

Accidental Damage Protection (ADP)

Prevents the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops, or damage to the integrated screen.

Warranty Extension (1-year base, up to 3 years total)

This fixed-term, fixed-cost service helps you accurately budget for PC expenses, protect your valuable investment, and lower the cost of ownership over time.

¹Optional

²Based on testing with MobileMark 2014. Battery life varies significantly with settings, usage, and other factors.

³Available on Intel® UMA configuration

Depending on many factors such as the processing capability of peripheral devices, file attributes, and other factors related to system configuration and operating environments, the actual transfer rate using the various USB connectors on this device will vary and is typically slower than the data rates as defined by the respective USB specifications: - 5 Gbit/s for USB 3.1 Gen1; 10 Gbit/s for USB 3.1 Gen2 & 20 Gbit/s for USB 3.2.
