EZ N Excellent Connection

The new standard in wireless HD The ASUS USB-N10 Nano provides a better wireless performance for your PC than legacy wireless 802.11g technology. It uses best-in-class antenna, MIFA, to perform consistent HD quality data streaming and to extend wireless receiving range. Not only does 802.11n offer you sufficient bandwidth and range, it's also backwards compatible with 11g and 11b networks.

Multiple OS Support - Windows, Mac and Linux

USB-N10 Nano allows you to easily enjoy wireless network under variable OS platform. It is compatible with most operating systems such as Windows, Linux, Mac, and even the newest Windows 8.
