1 Hardware Installation

EN 1 Remove the cover. Carefully insert the SIM card into the SIM card slot. Replace the cover.
2 Press the **Power** button 3 seconds and release it when the screen turns on.
3 Check if the NR2101 has successfully connected to the mobile network.
Note: Your SIM card should have an active mobile data plan.

DE 1 Nehmen Sie den Deckel ab. Legen Sie die SIM-Karte vorsichtig in den SIM-Kartensteckplatz ein. Schließen Sie den NR2101 mit dem Deckel.
2 Drücken Sie die **Ein/Aus**-Taste und lassen Sie sie los, wenn der Bildschirm eingeschaltet wird.
3 Überprüfen Sie, ob der NR2101 erfolgreich mit dem Mobilfunknetz verbunden ist.
Hinweis: Ihre SIM-Karte sollte einen aktiven mobilen Datentarif haben.

ES 1 Retire la tapa. Introduzca cuidadosamente la tarjeta SIM en la ranura para tarjeta SIM. Cierre el NR2101 con la tapa.
2 Presione el botón **Power** y suéltelo cuando la pantalla esté encendida.
3 Compruebe si el NR2101 se ha conectado correctamente a la red móvil.
Nota: Su tarjeta SIM debe tener un plan de datos móviles activo.

FR 1 Retirez le couvercle. Insérez soigneusement la carte SIM dans le logement pour carte SIM. Fermez le NR2101 avec le couvercle.
2 Appuyez sur le bouton **Power** et relâchez-le lorsque l'écran s'allume.
3 Vérifiez que le NR2101 s'est connecté avec succès au réseau mobile.
Remarque: Votre carte SIM doit avoir un forfait de données mobile actif.

IT 1 Rimuovere il coperchio. Inserire con attenzione la scheda SIM nella sua fessura. Chiudere il NR2101 con il coperchio.
2 Premere il pulsante di **Alimentazione** e rilasciarlo quando lo schermo si accende.
3 Verificare che il NR2101 sia collegato correttamente alla rete mobile.
Nota: La carta SIM dovrebbe avere un piano dati mobile attivo.

2 Check Internet Connection

3 Connecting to the NR2101

EN 4-a On your device, find the appropriate SSID and then enter the password to establish a wireless connection with the NR2101.

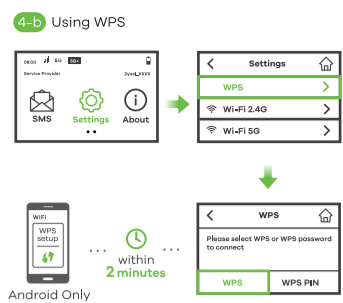

DE 4-a Suchen sie im zu verbindenden Gerät die entsprechende SSID und geben Sie dann das Passwort ein, um eine drahtlose Verbindung zum NR2101 herzustellen.

ES 4-a En el dispositivo que se va a conectar, localice el SSID adecuado y a continuación introduzca la clave para establecer una conexión inalámbrica con el NR2101.

FR 4-a Sur l'appareil à connecter, trouvez le SSID approprié, puis entrez la clé pour établir la connexion sans fil avec le NR2101.

IT 4-a Una volta che il dispositivo è connesso, trovare la SSID corrispondente e inserire la password per stabilire una connessione senza cavo col NR2101.

4 Using WPS

EN 4-b If your client supports WPS, enable it. Within 2 minutes, go to Settings > WPS and press WPS.

DE 4-b Wenn Ihr Client WPS unterstützt, aktivieren Sie dieses. Gehen Sie innerhalb von 2 Minuten zu den Einstellungen, Settings > WPS und drücken Sie WPS.

ES 4-b Si su cliente admite WPS, habilítelo. Antes de 2 minutos, vaya a Settings > WPS y pulse WPS.

FR 4-b Si votre appareil prend en charge la fonction WPS, activez-la. Dans les 2 minutes qui suivent, aller dans Settings > WPS et cliquer WPS.

IT 4-b Se il vostro client supporta il WPS, abilitarlo. Entro 2 minuti andare su Impostazioni > WPS, e premi WPS.

4 Using Ethernet

EN 4-c Use the USB-C cable to connect your computer to the NR2101.

DE 4-c Verwenden Sie das USB-C-Kabel, um Ihren Computer an den NR2101 anzuschließen.

ES 4-c Use el cable USB-C para conectar su ordenador al NR2101.

FR 4-c Utilisez le câble USB-C pour connecter votre ordinateur au NR2101.

IT 4-c Utilizzare il cavo USB-C per collegare il computer al NR2101.

EN 4-d Use an Ethernet cable to connect your computer to the NR2101.

DE 4-d Verwenden Sie ein Ethernet-Kabel, um Ihren Computer mit dem NR2101 zu verbinden.

ES 4-d Use el cable Ethernet para conectar su ordenador al NR2101.

FR 4-d Utilisez le câble Ethernet pour connecter votre ordinateur au NR2101.

IT 4-d Utilizzare un cavo Ethernet per collegare il computer al NR2101.

Troubleshooting

Problem: I cannot connect to the NR2101's wireless networks.
- Make sure wireless is enabled at **Settings > Wi-Fi 2.4 G** and/or **Settings > Wi-Fi 5 G**.
- Make sure you used the correct wireless SSID and password. Enable SSID > SSID password visible to view the wireless passwords.
- Reset the NR2101 by pressing **Settings > Restore Default > Restore**. Then connect to the default SSID on the screen with password **12345678**.

Problem: I am connected to the NR2101 but cannot access the Internet.

- Make sure you correctly inserted the SIM card into the SIM card slot.
- If your SIM card has a PIN code, unlock the SIM card at **Settings > PIN Management**.
- Make sure your SIM card's account is working and has an active data plan.
- Make sure your data plan has not reached its limit.
- Make sure you're in the ISP's coverage area.
- Make sure your mobile access information (such as APN) is correct. You can check this at **Settings > Profile Management** and **Settings > Network Settings**.

Charge Your NR2101

EN Use the USB-C cable to connect the NR2101 to the AC charger or a computer's USB port.

DE Verwenden Sie das USB-C-Kabel, um den NR2101 an das Netzladegerät oder den USB-Port eines Computers anzuschließen.

ES Use el cable USB-C para conectar el NR2101 al cargador de corriente o a un puerto USB del ordenador.

FR Utilisez le câble USB-C pour connecter le NR2101 au bloc d'alimentation ou au port USB d'un ordinateur.

IT Utilizzare il cavo USB-C per collegare l'NR2101 al caricatore CA o alla porta USB del computer.

Troubleshooting

Problem: I want to reboot the NR2101.

- Press the power button for 3 seconds, and then choose **Restart**.
- Press the reboot button located on the right side for 1 second.

Problem: I want to power off the NR2101.

- Press the power button for 3 seconds, and then choose **Power Off**.
- Press the power button for 10 seconds.

Problem: I want to lock the NR2101 each time the screen turns off.

- Set up a device lock/unlock password at **Settings > Password Lock**. To change the password, press **Modified**.

1 Hardware Installation

DK 1 Fjern låget. Indsæt forsigtigt SIM-kortet i SIM-kortåbningen. Luk NR2101 med låget.
2 Tryk på **Strøm**-knappen og slip den, når skærmen tændes.
3 Kontroller, om NR2101 er korrekt tilsluttet til mobilnetværket.
Bemærk: Dit SIM-kort bør have en aktiv mobildataplan.

NL 1 Verwijder het deksel. Plaats de SIM-kaart voorzichtig in de SIM-kaartgleuf. Sluit de NR2101 met het deksel.
2 Druk op de **Power**-knop en laat deze los wanneer het scherm inschakelt.
3 Controleer of de NR2101 is verbonden met het mobiele netwerk.
Opmerking: De SIM-kaart heeft een actief mobiel data-abonnement te hebben.

NO 1 Fjern lokket. Sett det SIM-kortet forsiktig inn i SIM-kortsporet. Lukk NR2101 med lokket.
2 Trykk på **Strøm**-knappen og slipp den når skjermen slås på.
3 Sjekk om NR2101 har koblet seg til mobilnet-tverket.
Mark: SIM-kortet skal ha en aktiv mobil dataplan.

FI 1 Irrota laitteen kansi. Aseta SIM-kortti varovasti SIM-korttipaikkaan. Sulje laite asettamalla kansi paikalleen.
2 Paina virtapainiketta kunnes näyttöön syttyy valo.
3 Tarkista, onko NR2101 muodostanut yhteyden matkapuhelinverkkoon onnistuneesti.
Huomautus: SIM-kortilla on oltava aktiivinen mobiilidataliittymä.

SE 1 Ta bort locket. Tryck försiktigt in SIM-kortet i SIM-kortfacket. Stäng locket på NR2101.
2 Tryck och håll ner **Strömknappen** tills skärmen tänds.
3 Kontrollera om NR2101 har anslutits till det mobila nätverket.
Obs: Ditt SIM-kort bör ha en aktiv mobildata-plan.

2 Check Internet Connection

3 Connecting to the NR2101

DK 4-a Find det korrekte SSID på den enhed der skal tilsluttes og indtast nøglen for at etablere en trådløs forbindelse til NR2101.

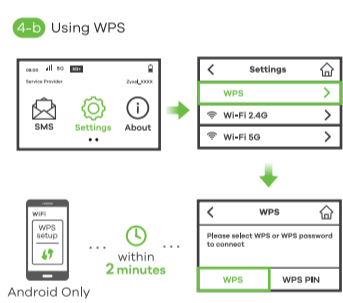

NL 4-a Om het apparaat te verbinden, vind de juiste SSID en voer de sleutel in om een connectie te verbinden in te stellen met de NR2101.

NO 4-a Finn frem til den aktuelle SSIDen på enheten som skal kobles til, og angi nøkkelen for å etablere en trådløs tilkobling med NR2101.

FI 4-a Voit muodostaa langattoman verkko-yhteyden laitteeseen valitsemalla oikean verkkotunnuksen ja näppäilemällä verkkoavaimen.

SE 4-a På enheten som ska anslutas, hitta motsvarande SSID och ange därefter nyckeln för att upprätta en trådlös anslutning till NR2101.

4 Using WPS

DK 4-b Hvis din klient understøtter WPS, aktiver det. Inden for 2 minutter, gå da til Settings -> WPS og tryk på WPS.

NL 4-b Als jouw client WPS ondersteunt, schakel deze dan in. Ga binnen 2 minuten naar Settings > WPS en druk op WPS.

NO 4-b Hvis klienten støtter WPS, aktiverer du det. Innen 2 minutter går du til Innstillinger > WPS og trykker på WPS.

FI 4-b Jos liitettävä laite tukee WPS-yhteyttä, ota yhteys käyttöön. Siirry asetuksiin (settings) > WPS ja paina WPS painiketta kahden minuutin kuluessa.

SE 4-b Om klienten stöder WPS, aktivera den. Inom två minuter, gå till Settings=WPS och tryck på WPS.

4 Using Ethernet

DK 4-c Benyt USB-C kablet til at forbinde NR2101 til din computer.

NL 4-c Gebruik de USB-C kabel om de NR2101 met de computer te verbinden.

NO 4-c Bruk USB-C-kabelen til å koble datamaskinen til NR2101.

FI 4-c Yhdistä NR2101 ja tietokone käyttäen USB-C -johtoa.

SE 4-c Använd USB-C kabeln för att ansluta din dator till NR2101.

DK 4-d Benyt Ethernet kablet til at forbinde NR2101 til din computer.

NL 4-d Gebruik de Ethernet kabel om de NR2101 met de computer te verbinden.

NO 4-d Bruk en Ethernet-kabel til å koble datamaskinen til NR2101.

FI 4-d Yhdistä NR2101 ja tietokone käyttäen Ethernet-johtoa.

SE 4-d Använd en Ethernet kabel för att ansluta din dator till NR2101.

Troubleshooting

Problem: I cannot connect to the NR2101's wireless networks.

- Make sure wireless is enabled at **Settings > Wi-Fi 2.4 G** and/or **Settings > Wi-Fi 5 G**.
- Make sure you used the correct wireless SSID and password. Enable SSID > SSID password visible to view the wireless passwords.
- Reset the NR2101 by pressing **Settings > Restore Default > Restore**. Then connect to the default SSID on the screen with password **12345678**.

Problem: I am connected to the NR2101 but cannot access the Internet.

- Make sure you correctly inserted the SIM card into the SIM card slot.
- If your SIM card has a PIN code, unlock the SIM card at **Settings > PIN Management**.
- Make sure your SIM card's account is working and has an active data plan.
- Make sure your data plan has not reached its limit.
- Make sure you're in the ISP's coverage area.
- Make sure your mobile access information (such as APN) is correct. You can check this at **Settings > Profile Management** and **Settings > Network Settings**.

Charge Your NR2101

DK Benyt USB-C kablet til at forbinde NR2101 til AC opladeren eller en USB port på en computer.

NL Gebruik de USB-C kabel om de NR2101 op te laden via een AC Adaptor of via een USB poort van de computer.

NO Bruk USB-C-kabelen til å koble NR2101 til batterieliminatoren eller USB-porten på en datamaskin.

FI Yhdistä NR2101 ja USB-laturi tai tietokoneen USB-portti käyttäen USB-C -johtoa.

SE Använd USB-C kabeln för att ansluta NR2101 till AC laddaren eller en dators USB port.

Troubleshooting

Problem: I want to reboot the NR2101.

- Press the power button for 3 seconds, and then choose **Restart**.
- Press the reboot button located on the right side for 1 second.

Problem: I want to power off the NR2101.

- Press the power button for 3 seconds, and then choose **Power Off**.
- Press the power button for 10 seconds.

Problem: I want to lock the NR2101 each time the screen turns off.

- Set up a device lock/unlock password at **Settings > Password Lock**. To change the password, press **Modified**.

1 Hardware Installation

- CZ** ① Sundejte kryt. Opatrne vložte SIM kartu do prihrádky pro SIM kartu. Zavrete víko zařízení NR2101.
- ② Stiskněte tlačítko **napájení** a uvolněte je, jakmile se zapne obrazovka.
- ③ Zkontrolujte, zda se zařízení NR2101 připojilo k mobilní síti.
Pozn: SIM karta by měla mít aktivní předplatné mobilních dat.
- HU** ① Távolítsa el a fedelet. Óvatosan helyezze a SIM-kártyát a SIM-kártyatartóba. Zárja be a NR2101 készüléket a fedéllel.
- ② Nyomja meg a **főkapcsolót**, majd engedje fel, ha a képernyő bekapcsolit.
- ③ Ellenőrizze, hogy a NR2101 megfelelően csatlakozott-e a mobilhálózatához.
- Megjegyzés:** SIM-kártyatartójához aktiv adatszomag-előfizetésnek kell tartoznia.
- PL** ① Zdejmij pokrywe. Uwaznie umiesc karte SIM w gniezdie karty SIM. Zamknij pokrywe urzadzenia NR2101.
- ② Naciśnij przycisk **Power** (Zasilanie) i zwolnij, gdy włączy się ekran.
- ③ Sprawdź, czy urządzenie NR2101 zostało pomyślnie podłączone do sieci komórkowej.
Uwaga: Twoja karta SIM powinna posiadać aktywny plan transmisji komórkowej.

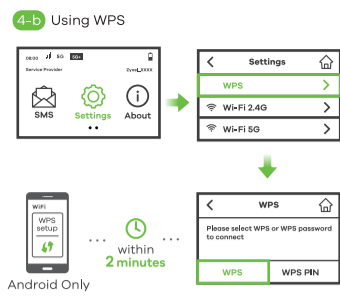

2 Check Internet Connection

- CZ** ④ Na pripojovaném zarizení vyhledejte příslušné SSID a pak zadejte klíč. Tím nastavíte bezdrátové připojení se zarizením NR2101.
- HU** ④ A csatlakoztatni kívánt eszközhöz keresse meg a megfelelő SSID-t, majd írja be a kódot a NR2101 készülékhez való vezeték nélküli csatlakozáshoz.
- PL** ④ Znajdz odpowiedni SSID podłączonego urządzenia, a następnie wpisz klucz w celu ustanowienia połączenia bezprzewodowego z NR2101.
- RO** ④ Pe dispozitivul care urmeaza sa fie conectat, gasi i SSID-ul corespunzator i apoi introduce i codul pentru a stabili o conexiune wireless cu NR2101.
- SK** ④ V pripínanom zariadení nájdite správny identifikátor SSID a zadajte kľúč na vytvorenie bezdrôtového spojenia so zariadením NR2101.

3 Connecting to the NR2101

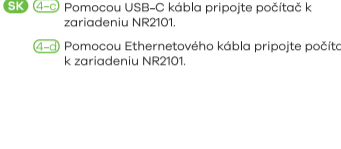

- CZ** ④-b Pokud váš klient podporuje WPS, aktivujte je. Do 2 minut přejděte do Nastavení > WPS a stiskněte WPS.
- HU** ④-b Ha az ügyfél rendelkezik WPS-támogatással, engedélyezze azt. 2 percen belül, lépjen tovább a Beállítások menübe (Settings) -> WPS és kattintson a WPS-ra.
- PL** ④-b Jeśli klient obsługuje standard WPS, aktywuj go. W ciągu 2 minut, przejdź do menu Ustawienia> WPS i naciśnij WPS.
- RO** ④-b Dacă clientul dvs. accepta WPS, activați-o. În decurs de 2 minute, accesați Setări > WPS și apăsați WPS.
- SK** ④-b Ak klient podporuje funkciu WPS, zapnite ju. Do 2 minút prejdite do ponuky Settings (Nastavenia) > WPS a stlačte WPS.

4 Charge Your NR2101

- CZ** ④-a Pomocí kabelu USB-C připojte počítač k zařízení NR2101.
- ④-b Pomocí ethernetového kabelu připojte počítač k zařízení NR2101.
- HU** ④-a Az USB-C kábelen keresztül csatlakoztassa a számítógépet az NR2101 eszközhez.
- ④-b Az Ethernet kábelen keresztül csatlakoztassa a számítógépet az NR2101 eszközhez.
- PL** ④-a Użyj kabla USB-C aby podłączyć komputer do NR2101.
- ④-b Użyj kabla Ethernet aby podłączyć komputer do NR2101.
- RO** ④-a Utilizați cablu USB-C pentru a conecta computerul la NR2101.
- ④-b Utilizați un cablu Ethernet pentru a conecta computerul la NR2101.
- SK** ④-a Pomocou USB-C kábla pripojte počítač k zariadeniu NR2101.
- ④-b Pomocou Ethernetového kábla pripojte počítač k zariadeniu NR2101.

Troubleshooting

- Problem: I cannot connect to the NR2101's wireless networks.**
- Make sure wireless is enabled at **Settings > Wi-Fi 5 G** and/or **Settings > Wi-Fi 5 G**.
 - Make sure you used the correct wireless SSID and password. Enable SSID > SSID password visible to view the wireless passwords.
 - Reset the NR2101 by pressing **Settings > Restore Default > Restore**. Then connect to the default SSID on the screen with password **12345678**.
- Problem: I am connected to the NR2101 but cannot access the Internet.**
- Make sure you correctly inserted the SIM card into the SIM card slot.
 - If your SIM card has a PIN code, unlock the SIM card at **Settings > PIN Management**.
 - Make sure your SIM card's account is working and has an active data plan.
 - Make sure your data plan has not reached its limit.
 - Make sure you're in the ISP's coverage area.
 - Make sure your mobile access information (such as APN) is correct. You can check this at **Settings > Profile Management and Settings > Network Settings**.

- Problem: I want to reboot the NR2101.**
- Press the power button for 3 seconds, and then choose **Restart**.
 - Press the reboot button located on the right side for 1 second.
- Problem: I want to power off the NR2101.**
- Press the power button for 3 seconds, and then choose **Power Off**.
 - Press the power button for 10 seconds.
- Problem: I want to lock the NR2101 each time the screen turns off.**
- Set up a device lock/unlock password at **Settings > Password Lock**. To change the password, press **Modified**.

1 Hardware Installation

- SI** ① Odstranite pokrov. Predvidno vstavite kartico SIM v rezo za kartico SIM. Zaprite pokrov na NR2101.
- ② Pritisnite gumb za **Vklop** in ga spustite, ko se zaslon vklopi.
- ③ Preverite, ali se je NR2101 uspešno povezal z mobilnim omrežjem.
Opomba: Vaša kartica SIM mora imeti aktivni mobilni podatkovni načrt.
- TR** ① Karagı çıkarın. SIM kartı nazikçe SIM Kart yuvasına yerleştirin. NR2101'i kapak ile kapatın.
- ② Güç düğmesine basın ve ekran açıldığında bırakın.
- ③ NR2101'in mobil ağa başarıyla bağlanıp bağlanmadığını kontrol edin.
Not: SIM kartınızın aktif bir mobil veri planı olmalıdır.
- BG** ① Свалете капака. Внимателно поставете SIM картата в слота за SIM карта. затворете NR2101 с капака.
- ② Натиснете бутона за **Захранване** и го освободете, когато екранът се включи.
- ③ Проверете дали NR2101 е свързан успешно с мобилната мрежа.
Забележка: Вашата SIM карта трябва да има активен план за мобилни данни.

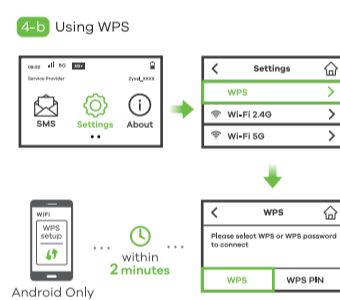

2 Check Internet Connection

- SI** ④-b På enheten som ska anslutas, hitta motsvarande SSID och ange därefter nyckeln för att upprätta en trådlös anslutning till NR2101.
- TR** ④-b Baska bir aygıtın bu adı (SSID) bulun ve NR2101'e kablosuz olarak bağlanmak için ANAHTARI girin.
- BG** ④-b От друго устройство отворите това Име (SSID) и въведете Password, за да се свържете безжично с NR2101.
- RU** ④-b Найдите соответствующее сетевое имя (SSID) на подключаемом устройстве и введите сетевой ключ для беспроводного подключения к NR2101.

3 Connecting to the NR2101

- SI** ④-b Om klienten stöder **WPS**, aktivera den. V roku dveh minut pojdite na: Settings > WPS in pritisnite WPS.
- TR** ④-b Müsteriniz WPS'yi destekliyorsa, etkinleştirin. 2 dakika içinde Ayarlar> WPS'e gidin ve WPS'e basın.
- BG** ④-b Ако вашият клиент поддържа WPS, натиснете бутона WPS. В рамките на 2 минути отидете до Настройки > WPS и натиснете WPS.
- RU** ④-b Если клиентское устройство поддерживает WPS, включите функцию WPS. В течении 2-х минут зайдите в раздел Настройки – WPS и нажмите клавишу WPS.

4 Charge Your NR2101

- SI** ④-a Uporabite USB-C kabel za povezavo računalnika na NR2101.
- ④-b Uporabite Ethernet kabel za povezavo računalnika z NR2101.
- TR** ④-a Bilgisayarınıza NR2101 cihazına bağlamak için USB-C kablosunu kullanın.
- ④-b Bilgisayarınıza NR2101 cihazına bağlamak için Ethernet kablosunu kullanın.
- BG** ④-a Използвайте USB-C кабела за свързване на компютъра с NR2101.
- ④-b Използвайте Ethernet кабел за свързване на компютъра с NR2101.
- RU** ④-a Используйте кабель USB-C для подключения к компьютеру роутера NR2101.
- ④-b Используйте интернет кабель для подключения к компьютеру роутера NR2101.

Troubleshooting

- Problem: I cannot connect to the NR2101's wireless networks.**
- Make sure wireless is enabled at **Settings > Wi-Fi 2.4 G** and/or **Settings > Wi-Fi 5 G**.
 - Make sure you used the correct wireless SSID and password. Enable SSID > SSID password visible to view the wireless passwords.
 - Reset the NR2101 by pressing **Settings > Restore Default > Restore**. Then connect to the default SSID on the screen with password **12345678**.
- Problem: I am connected to the NR2101 but cannot access the Internet.**
- Make sure you correctly inserted the SIM card into the SIM card slot.
 - If your SIM card has a PIN code, unlock the SIM card at **Settings > PIN Management**.
 - Make sure your SIM card's account is working and has an active data plan.
 - Make sure your data plan has not reached its limit.
 - Make sure you're in the ISP's coverage area.
 - Make sure your mobile access information (such as APN) is correct. You can check this at **Settings > Profile Management and Settings > Network Settings**.
