## Veriton Mid Tower

13th Gen Intel® Core™ Processor<sup>1</sup>  
Up to 64GB DDR4-3200 MHz Dual-channel Memory  
Discrete TPM Tamper Resistance  
Wi-Fi 6 & Bluetooth 5 Connectivity<sup>1</sup>

1. Specifications may vary depending on model and/or region.

1. Specifications vary depending on model.  
2. 64-bit software is required to enjoy the advantages of 64-bit processing.  
3. A 64-bit operating system is required to enjoy the ultimate performance of 4 GB or higher memory.  
4. Memory speed may vary, depending on the CPU, chipset or memory fitted.  
5. 1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Recovery Management uses a portion of the stated hard disk capacity as dedicated backup space.  
6. Total available graphics memory comprises dedicated video memory, system memory, and shared system memory. This figure will vary depending on system memory, installed drivers, BIOS settings and other factors.  
7. For systems with a dual-channel configuration, the two memory modules inserted must be identical, including raw card, size, type, and speed.

In a continuing effort to improve the quality of our products, information in this document is subject to change without notice. Images shown are only representations of some of the configurations available for this model. Availability may vary depending on region.  
As a phenomenon known to thin-film transistors (TFTs), liquid crystal displays (LCDs) commonly exhibit a small number of discoloration dots, as so-called "non-conforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect, and as such is not covered by Acer's warranty.
