ROG-THOR-1200P
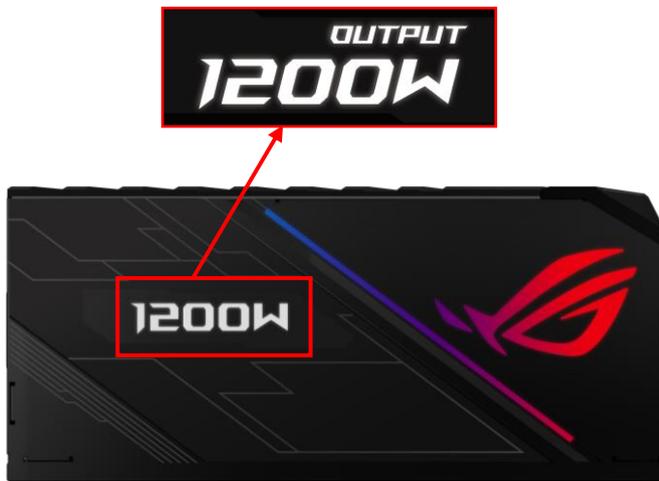

HARNESS THUNDER!!

ASUS Exclusive Innovations

■ OLED Power Display

The ROG Thor is the first PC PSU in the world to feature an integrated OLED panel, offering a real-time display of power draw. Now you can see at a glance how much juice your rig is using.

*Note: The OLED shows the power (AC Watts) that it draws from the wall

■ ASUS Aura Sync

Addressable Aura RGB LEDs built-in and ready for you to create your custom look.

ROG Thermal Solution

The integrated ROG heatsinks have 2x more volume than traditional designs, resulting in 20% lower temperatures inside the ROG Thor PSU. This enables cooler operation, extending the lifespan of components and allowing 0dB operation long after standard designs would have to spin up their fans

## Patented Wing-Blade Fan with 0dB Technology

ROG Thor PSU equipped with a 135mm patented Wing-Blade fan to maximize component lifespan. 0db technology utilizes thermal sensors to allow the fan to switch off completely at lower wattages - enabling totally silent operation.

100% Japanese Capacitors

Provide longer product life span, better efficiency and better quality for PSU.

■ Fully Modular with Sleeved Cables bundled

Full Modular design with out of the box high quality sleeved cables and cable combs to enhance your building experience.

ASUS Features

● 80 PLUS PLATINUM CERTIFICATION

The ROG Thor 1200W Platinum utilizes top-end Japanese capacitors to ensure efficient operation. This has earned an 80 PLUS Platinum certification, which guarantees 89% efficiency at 100% load and 92% at 50% load. The increased efficiency produces less heat, reducing fan noise and increasing reliability

● 10-YEAR Limited Warranty:

We're so confident about the reliability of the ROG Thor PSU that we back it with a worldwide limited 10-year* warranty.

* Core product operation is guaranteed for 10 years. The OLED panel and RGB LEDs are subject to a 3-year warranty for three years.
