FUJITSU Notebook LIFEBOOK E5 Series

Your Powerful and Modern Business Companions

The FUJITSU Notebook LIFEBOOK E5 Series is the modern and reliable business notebook family for office workers based on the 11th generation Intel® Core™ processor. Its robust design, advanced security features, best-in-class connectivity and comfortable usability ensure high productivity no matter where you work.

Best for everyday business demands

Work with a mobile companion that reliably supports you in your diverse everyday work tasks. The FUJITSU Notebook LIFEBOOK E5 Series not only looks good with its slim, durable design, but shows what it's made of in meetings, when you're working at your desk, teaming up with colleagues, or video conferencing. Additionally, protect your investment with the LIFEBOOK E5 Series thanks to an extraordinary guaranteed product lifecycle of 24 months and be ready for modern concepts such as shared desks. Here are some great features that you will appreciate every workday:

- Best-in-class connectivity
- Strong protection against unauthorized access
- Long-term stable platform
- Touch/non-touch screen option
- Quick and easy upgrade

The webcam is equipped with a **Privacy Camera Shutter** function that physically covers the camera lens, preventing unauthorized hacking and access.

Strong protection

Easily ensure security and privacy with the LIFEBOOK E5 Series. No more tiresome typing of passwords – just log in with biometric authentication via fingerprint sensor or face recognition with the infrared camera and Windows Hello instead. Or use the integrated PalmSecure™ sensor as your personal key. This is much more secure than any other biometric method or password. The LIFEBOOK E5 Series also protects your privacy with the clever Privacy Camera Shutter.

Best-in-class connectivity

Stay flexible anytime with a full set of full-sized ports, such as for HDMI and LAN, and free yourself from having to think about additional adapters. Enjoy the Intel® Thunderbolt™ 4 USB Type-C port for charging your laptop, transferring files at high speeds, and connecting external monitors and other peripherals. Also, stay connected with MS Modern Standby, even if your notebook is idle for a short period of time.

Convenient serviceability

Work in the office with the greatest possible flexibility. There is no annoying fiddling around with cables at your desk, and no tedious tinkering when you want to upgrade your notebook. Simply dock your LIFEBOOK to the port replicator and start working. And take advantage of easy access to key components to quickly and easily change the battery, memory or connectivity components (LTE & WLAN).

Modern and durable

Meet your everyday business needs with a modern notebook that provides reliable mobility and ease of use with a slim 23.9-mm design, starting at only 1.79 kg – with a full day of battery runtime. And enjoy an ergonomic viewing experience with a glare-free 14.0-inch or 15.6-inch HD or FHD display – optional with touch or non-touch screen.
