

22V2Q

21.5
(54.7) LCD MONITOR

Frameless FreeSync IPS

Frameless Design

Besides looking modern and attractive, frameless designs enable seamless multi-monitor setups.

Your cursor/windows will not be lost anymore in the dark abyss of bezels, when many displays are placed side by side.

IPS Panel

No matter if you are viewing photos, videos, a magazine layout in InDesign or playing your favourite game – we want your content to look excellent from whatever angle you are seeing it.

That is why this display comes with an advanced IPS panel, which produces brilliant colours and offers wide viewing angles. This way, images always look excellent and accurate, regardless from which angle you – or your friends and co-workers sitting or standing next to you – are looking at the screen.

FreeSync

Gaming occasionally? AOC delivers smooth gameplay with AMD's FreeSync technology, which matches the framerate output of your GPU to your monitor's refresh rate, eliminating input lag, screen tear and stuttering. By choosing AOC, you won't stay behind innovations.

Nature

Slim design

Slim designs bring huge positives: First, thin displays look very elegant, especially in public spaces, even when seen from the back or sides. Also, less space on the desk is needed.

Screen Details

Color	Black
Resolution	1920x1080 PX
Refresh rate	75Hz
Response time	5
Panel	IPS
