See the Dell Commercial Docks Family Brochure for more information on our entire docking portfolio.

* These notebooks have higher power requirements, so the Dell Universal Dock UD22 or Dell Dual Charge Dock HD22Q is not recommended. If these are docked with the Dell Universal Dock UD22 or Dell Dual Charge Dock HD22Q, the notebook needs to be plugged in externally for optimal performance. For the best experience with these notebooks, choose from Dell Dock WD19/WD19S (180W), Dell Performance Dock WD19DC / WD19DCS, Dell Thunderbolt Dock WD19TB/WD19TBS or Dell Thunderbolt 4 Dock WD22TB4 based on the notebook's power requirement, so you no longer need an additional power adapter.
