PRODUCT DESCRIPTION

The SALVIA lighting series is the perfect solution for those wishing to create consistent and functional outdoor lighting for their property. The series includes façade luminaires and garden bollards, which blend in perfectly with the surroundings of the building, terrace or balcony. The option of choosing a fixture with a motion sensor further enhances the sense of security for homeowners.

The design of each SALVIA luminaire is distinguished by a dark grey aluminium housing and a smoked

transparent plastic shade, adding a modern character and subtle elegance to the environment.

The luminaires are resistant to various atmospheric conditions such as rain or dust (IP54 protection level), guaranteeing reliability and durability for many years.

The SALVIA luminaire presented here is a garden bollard, adapted to one source of light with an E27 thread and a maximum power of 15W. The possibility of changing the bulb allows the user to choose the preferred colour of light (no bulb included).

The diameter is 90 mm and the height is 500 mm. The luminaire is also available with a movement sensor.

TECHNICAL DATA

General information:

Nominal voltage [V]:	230
Lamp type:	Żarówka
Suitable for lamp power [W]:	15
Lamp holder:	E27
With light source:	nie
Suitable for number of lamps:	1
Degree of protection (IP):	IP54
Protection class:	I
Type of luminaire:	Słupek oświetleniowy
Material housing:	Aluminium
Colour housing:	Szary
Material cover:	Tworzywo sztuczne przezroczyste
Height/depth [mm]:	500
Diameter [mm]:	90
Voltage type:	AC
